INTRODUCTORY

Any one who makes a trip to the outskirts of the city cannot fail to be impressed by its growth. New houses spring up like mushrooms in the night, and before we realize their existence they are old by comparison with newer buildings. To those who have watched this phenomenal progress, the result of a canvass may be disappointing. One of the reasons for this discrepancy between the real and the apparent municipal growth is the difference between the official city limits and the actual limits of the city. The city has out-grown its bounds, so that its real population, which logically includes all families on the outskirts having business in the city, is considerably larger than the official population, comprising only those who actually live within the city limits. Therefore the enumeration of those within the city walls will probably fall short of our expectations which are based upon the visible signs of growth about us.

The population within the official pale this year is **392,181**, represented in the directory by 172,767 names. Last year the population was 384,272, based upon 169,283 names. Hence this year's intramural gain is 7,909.

The Association of American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide **protection** to the public against **fraudulent advertising schemes which operate under the name of Directories**, and to drive unprincipled promoters of the same out of the business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 Reward Will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing, for any fraudulent or fake directory.

HOW TO RING A BOX

A key for the ordinary locked boxes may
 be found in the house at the corner the
 box is on or in the house next thereto.
 Immediately upon the discovery of a fire
 in your neighborhood go to the box nearest
 to the fire unlock the door and pull the
 hook all the way down and let go. Do not
 jerk the hook down and up but pull it
 down steadily as far as it will go and let
 go.

No key is required for the keyless door
 boxes. Turn the handle to the right open
 the door and pull the hook all the way
 down and let go; then close the door and
 wait there till the department arrives and
 inform it where the fire is.
